

2025 CTSS Singapore Junior Physics Olympiad info

The SJPO is a competition for secondary school students, aimed at encouraging the **study and appreciation of physics** beyond the school curriculum. This annual competition provides opportunities for students to solve novel physics problems that require **critical and inventive thinking**.

The SJPO is organised by the **Institute of Physics, Singapore (IPS)** with support from the Ministry of Education (MOE).

For the 2024 competition, there was two rounds. The second round, usually known as the “Special Round”, will be replaced by an online SJPO (Team Round) that is also known as the Singapore Physics League (SPhL). All participants need to form their own teams of 3 to 5 participants.

The **first** round, was an online SJPO (Individual Round) consisting of 50 MCQ questions to be completed in the school.

The **second** round, was an an online SJPO (Team Round) that is also known as the Singapore Physics League (SPhL). All participants need to form their own teams of 3 to 5 participants. This was normally held during the June holidays where you can sit at any location.

Note: the format may change for 2025

Students participating will be expected to do independent work with notes and worksheets on SLS and Google classrooms.

Face to Face meetings will be held on Tues Odd week and/or Thurs even week to discuss selected worksheet questions from week 9, 3.15 to 4.30 pm.

All those who have registered are expected to be committed to completing all assignments given.

This will be subject to changes.
